PROFILE

Ivorian graduate, 33, in Business Management (Bachelor's degree). Specialised in Monitoring, Evaluation, Accountability & Learning (MEAL) and data analysis. Built a complete MEAL system for a humanitarian response (multi-purpose cash assistance), from KoboToolbox to an interactive Power BI dashboard. Five months of field experience as a MEAL Consultant with Côte d'Ivoire's Ministère de l'Emploi et de la Protection Sociale (Centre Social de Sassandra), where 12 M&E tools were designed, 4 accountability mechanisms deployed, and 150+ beneficiary records tracked. Comfortable in both French and English, I am applying to Save the Children's Annual Internship Programme (PAS) 2027 to put this methodological rigour to work for child protection.

PROFESSIONAL EXPERIENCE

Data Analyst Extern — Data-Driven Decision-Making Externship

2026 — Present

Center for Improving Youth Justice (CIYJ), Braintree, MA, USA (via Extern)

- **Longitudinal Data Synthesis & Pattern Recognition:** analysed two decades of juvenile-facility records in Python, surfacing critical trends, demographic correlations, and incident patterns across longitudinal survey datasets.
- **Data Architecture & Codebook Mapping:** designed and published a comprehensive dataset inventory — mapping unit-of-analysis, sheet structures, variable schemas, and codebook locations — establishing the foundation for deeper correlational analysis.

MEAL Consultant

May — Sept 2025

Ministère de l'Emploi et de la Protection Sociale — Centre Social de Sassandra, Côte d'Ivoire

- **M&E Framework Design:** designed and updated 12 M&E tools and matrices, standardising field data collection across the Monitoring & Evaluation pool.
- **Data Management & Visualization:** supervised collection, quality control and analysis of 150+ beneficiary records, building dashboards to keep leadership informed with reliable evidence.
- **Community Accountability:** deployed and strengthened 4 community feedback and complaint mechanisms, improving accountability to stakeholders and communities.
- **Capitalization:** authored 3 evaluation reports and best-practice briefs, documenting key learnings and recommendations for centre leadership.
- **Capacity Building:** trained and coached 5 team members and collaborators on data analysis and evidence-based decision-making.

Independent Software Engineer (Freelance/Consultant)

2019 — 2024

Self-employed — Remote

- **Full-Stack Application Development:** designed, developed, and deployed cross-platform web and mobile applications for remote international clients (Python, JavaScript, SQL, Flutter), managing the full software development lifecycle.
- **Marketing Data Analytics:** conducted digital marketing performance and campaign analytics for consulting clients, leveraging custom data pipelines to evaluate user acquisition channels and drive product strategy.

Assistant Project Manager — Personalized School Kits Initiative

2015 — 2018

Jeune Équipe SARL — Abidjan, Côte d'Ivoire

- **Operational Logistics & Supply Chain:** coordinated the end-to-end manufacturing, custom production, and field distribution of personalized educational kits to partner institutions across Abidjan, significantly cutting operational unit costs.
- **Advanced Data Analytics & Revenue Optimization:** used advanced Excel data models and product-demand analytics — sharpened through a concurrent data analysis course — to evaluate sales velocity, shifting production strategy toward top-performing lines and helping triple overall company revenue.
- **Stakeholder Management:** interfaced directly with school directors and administrative stakeholders to capture operational constraints and translate field requirements into tailored product deliverables.

SKILLS

MEAL & Field Data: KoboToolbox / ODK, ActivityInfo, indicator & logframe design, beneficiary feedback (CRM) systems, qualitative analysis (FGDs, KIIs)

Data & Analytics: Power BI (DAX), Advanced Excel (Power Query), SQL/SQLite, Python, statistical analysis (SPSS)

Tools & Languages: Git/GitHub, MS Office (Word, Excel, PowerPoint, Outlook) — French (Native), English (Professional, C1)

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Business Management — Université de l'Atlantique, Abidjan
MEAL DPro — PM4NGOs

2014
In progress

MEAL Essentials — Cornerstone OnDemand Foundation / DisasterReady.org	2026
Applied AI for Social Good — PoliSync / Globethics / Microsoft Elevate	2026
AI Fluency for Nonprofits — Anthropic / GivingTuesday	2026
Introduction to Data for Decision Makers — BCG (Forage)	2026
Data Visualisation: Empowering Business with Effective Insights — Tata (Forage)	2026

FEATURED PROJECT

MEAL Portfolio — Flood Response (Multi-Purpose Cash Assistance)

Designed the full MEAL system (n=60 households): Theory of Change, results framework, logframe, KoboToolbox form, bilingual Power BI dashboard. FCS 86.7% → 93.3%; rCSI 10.47 → 8.15. Details and links on the online portfolio.
